# SR 3005 Bridge Superstructure Replacement

Energy Client, Richhill Township, Greene County, PA

Stahl Sheaffer prepared the design and permit plans for the removal of the existing 75' single span bridge superstructure with abutment modifications, beam and deck replacement, shoulder widening, minor approach work, and other miscellaneous construction, as indicated on the approved drawings in the bid package for SR 3005 in Richhill Township at segment 0160 offset 0000. The work was completed under the 2017 PennDOT Private Partnership Agreement with PennDOT District 12-0 oversight. To meet the client's schedule, Stahl Sheaffer accelerated the project by completing the design and receiving approvals within six months from the notice to proceed date.
